WEB DEVELOPMENT PROJECTS

LEAf - github.com/jbmilgrom/leaf

A social read-it-later app with applications in social media, education and other markets

- Allows users to email articles to the app from any platform using the native "emailer" for later viewing
- Allows users to follow other users and view articles (through a many-to-many self-join table)
- Technologies include Ruby on Rails, SendGrid, Griddler, Pismo, Ngrok, jQuery, Ajax and Backbone

Thirster - github.com/jbmilgrom/thirster_games

A marketplace for bar owners and fans

- Allows bar owners to broadcast sports games and Users to show interest in such games
- Polymorphic "Like" model allows many user associations
- Technologies include Ruby on Rails, SportsData API, jQuery, Ajax, Devise

ArtLoft - github.com/jbmilgrom/art_loft

An app that connects artists with private residences

- Technologies include Ruby on Rails, Rspec, Bcrypt
